

For local subsidiaries and trading firms

CAUTION

**Respond to end-
users of machine
tools made in
Japan with
precaution**

(2024.6.28)

About this material

The Japan Machine Tool Builders' Association, or JMTBA prepared this material to precaution users of machine tools made in Japan on managing your machine tools from the perspective of security and export control.

In Japan, the management of machine tools is subject to regulations based on international regimes for security and export control, and by Japanese laws. Please pay attention in order not to cause any incidents related to security and export control, by understanding the substance of this material.

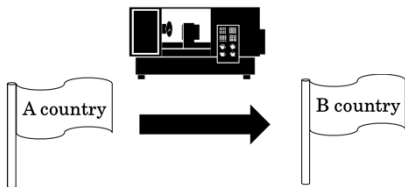

Transfer to
another location

Sell to another
company

Export to another
country

CAUTION

When your end-user consults you on re-transfer, re-sale or export, etc., please inform your Japan exporter of the machine tool always prior to re-transfer, re-sell, export, etc. of it. Please do not re-transfer, re-sell or export it until the Japanese exporter makes their judgement.

To:ABC Co.,Ltd.

Japanese Exporter of machine tools

You

You need to get from the end-user detailed information on destination of the end-user and the end-use of the machine tool on behalf of the Japanese exporter.

End-user seeking to re-transfer, re-sell or export etc. machine tools

CAUTION

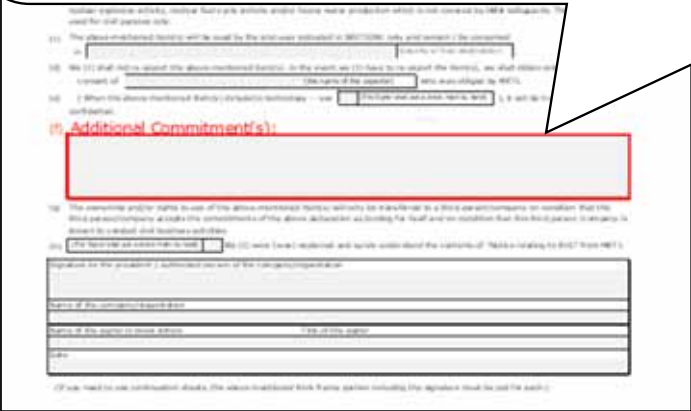

Japanese exporters being consulted by the end-user on re-transfer, re-sale or export, etc., of machine tools, in order to understand the substance may ask you to provide detailed information.

In this case, please always cooperate.

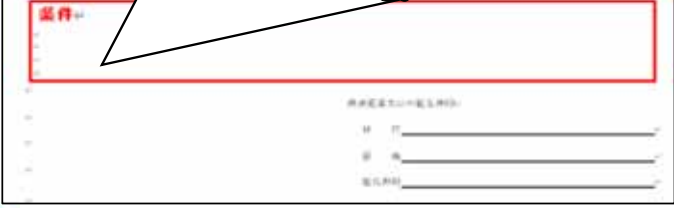

Please cooperate by observing the items stated by METI in the “additional commitment(s)” column of the End-Use Certificate (EUC) and the “Condition” of Application for Export Permission”.

We shall not use the above mentioned item(s) to manufacture components for military goods.

You must execute a procedure for prior consensus to METI and obey orders from METI swiftly after you receive from end-user a request for prior consensus procedure on re-sale or re-export (or re-offer of technology, restricted to technology to be offered in a country other than the country initially offered the technology).

Please inform the Japanese exporter when the incidents below occur to end-user.

If you are asked to move the machine tool or to transfer it from the location installed by government of your country or state etc.

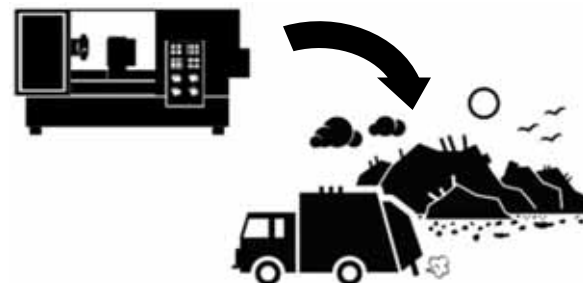

If you must relinquish the machine tool by a business assignment, going out or bankruptcy of business

If you must transfer the machine tool to evacuate from a natural or man-made disaster

If you must acquire or relinquish machine tools in a business merger or acquisition etc.

If you want to scrap the machine tool

Please confirm status of the machine tools previously installed in the end-user's factory from the following perspectives when you visit the end-user for another business etc.

Is the end-user still the same end-user ?

User

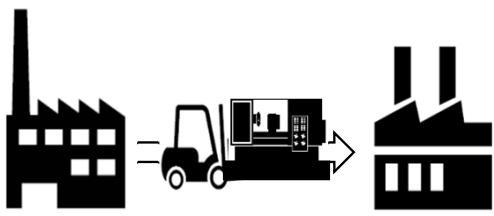

The Other Company

Is the other company in the same building in military business?

Is your machine being used for military purposes?

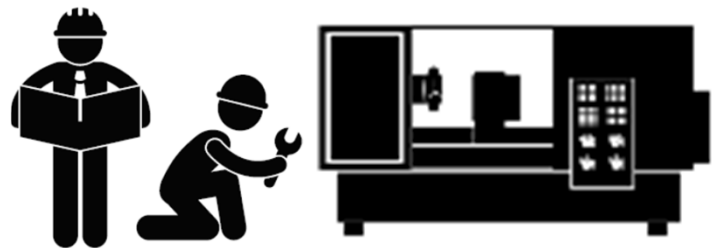

Has the right of ownership and use changed?

Lost

Is the machine tool still there?

Has the machine tool altered or not?
